

Environmental Policy

Continuous improvement in environmental performance equals excellence in environmental management.

At Van Dyck Fine Foods Ltd we are adopting the principles of sustainable development. We recognise our responsibility to meet applicable laws and regulations, community and customers' expectations. We are committed to the continuous improvement of our environmental performance in order to protect our workers, the community and the environment. We believe that environmental stewardship is both a management obligation and the responsibility of our employees. As an accredited Sedex member, we have an ongoing commitment to create a more environmentally sustainable supply chain.

1.	Maintain and continuously improve Environmental Management across the organisation.
2.	Ensure that all personnel, contractors and consultants receive adequate training to fulfil their environmental responsibilities
3.	Apply a systematic approach to identifying hazards and managing environmental risks to reduce these to as low as reasonably practicable
4.	Comply with relevant legal and other requirements, and where opportunities exist, participate in the development and review of legislation and guidelines.
5.	Implement strategies to reduce and prevent pollution, reduce emissions, manage waste effectively, use water efficiently, management of raw materials, energy and reduction of environmental impact on the environment.
6.	Adhere to all customer requirements, including customer specific codes of conduct.
